Dear Rev. Father Christopher,

Thank you very much for your gift which we received as a check in the amount of 615 USD.

The gift came as a nice surprise for us. As you agree we will use the money for the reconstruction project to fix the façade of the small Monastery in Medzilaborce. This will cost us all together about 10.000,-€.

I am sending you a book that we edited for our 90 anniversary. In the book the Medzilaborce monastery look pretty good, but it is only due to Photoshop computer program.

You mentioned to write about other projects: I do not which to write about.

We have a real need to replace a roof at the Bardejov Monastery. There is often full of overflowing water each time when there is a rain, so we need to put down all roof, fix wood, give new sealing and put back the roof tile. This will also cost us about 10.000€, it depends what they find there when giving the roof down.

Other project if somebody would like to help us is sponsoring monthly educational and spiritual meetings of youth. If we have more financial ability we can use different workshops with the youth and also we can afford to ask for different people to give their talks to the children as well as Sisters too.

Wishing you strength of the body and soul that you can do in Christ vineyard whatever God's call you to do!

Sincerely in Christ,

Sr. Josifa Helena Šimová OSBM
Provincial Superior
